MC Services supports BIO-Europe® Berlin as media partner

Munich/Duesseldorf, Germany, October 18, 2017. MC Services AG, the international investor relations and public relations firm, today announced that it will support BIO-Europe®, Europe's largest life science partnering conference, as media partner for the third consecutive year. The event, organized by EBD Group, takes place November 6 - 8, 2017 at the CityCube Berlin, Germany.

As media partner, MC Services invites local and international journalists to the event and provides them with information about the presenting companies, their executives and investors. MC Services will be on site throughout the conference, conducting both media and partnering meetings.

"BIO-Europe® is the "must-attend" conference for the European life science industry and a key event for many of our clients. Following the successful BIO-Europe® conferences in Munich and Cologne, we are pleased to support this prestigious meeting once again as media partner. Berlin has a successful history for finance and funding and is an emerging hub for the life sciences and healthcare industries. As a media partner, our aim is to ensure great awareness for this important event and the participating companies within and beyond the boundaries of the industry," said Raimund Gabriel, Managing Partner at MC Services AG.

Each year, BIO-Europe® attracts an international "who's who" from the biotech, pharma and finance sectors, along with the most exciting emerging companies. In 2017, approximately 3,800 attendees, representing 2,000 companies from over 60 countries are expected to have about 21,000 one-on-one meetings. More than 150 company presentations and 20 high-level workshops and panel discussions will complement the event. As in previous years, one of the highlights of the event will be the pitching competition "Startup Slam: Berlin", in which up to 20 start-up companies will get the opportunity to present their technologies to a jury of leading investors, pharma and biotech business KOLs.
